RE: Recommendation of Dr. Kerstin Seyfarth

Dr. Kerstin Seyfarth supported GSK Vaccines GmbH in Marburg, Germany during the ERP Integration Project from 1st of June 2016 until 28th of February 2017.

Initially she worked for the Site-Training Coordinator and the Site-Documentation Manager for ERP Integration related to the coordination of training roll-out and the relevant document changes. Dr. Seyfarth assumed Site Training Coordination for ERP Integration step by step and Document Management for ERP Integration after project go-live. With the end of the project by February 2017 she transferred the respective tasks for routinely working to the responsible departments.

Dr. Kerstin Seyfarth was able to quickly step into the new areas and was a very diligent member of the project team. She always maintained a very high quality standard for her work. Dr. Kerstin Seyfarth was a valuable member for the success of the project and we can highly recommend her for any assignments. We thank Kerstin for her commitment and contribution and wish her all the best for the future

Marco Dommermuth
Head ERP Integration
GSK Vaccines GmbH
